Re: **REQUEST PURSUANT TO FREEDOM OF
INFORMATION ACT**

Dear Sir or Madam:

I have the following questions under the Freedom of Information Act:

1. Does the City of Bloomington test our drinking water for Volatile Organic Compounds from all supply sources?
2. Does the City of Bloomington test for any specific VOC's such as 1,4 Dioxane?
3. How often does the City of Bloomington test the water supply?
4. Does the City of Bloomington test its water supply "in house?" If so, what analytical methods are they using to test for VOC's? Please send copies of the last 4 or 5 testing results.
5. If the City of Bloomington is outsourcing the water tests for VOC's, what is the name and address of the lab the City of Bloomington is using for the tests? Please send copies of the last 4 or 5 testing results.
6. What testing methods is the outsourcing lab using?

7. What are the most recent Bloomington water supply test results, providing the date and the lab name that did the testing? Please send copies of the testing results for the last 4 or 5 tests.

Sincerely,
KEN NUNN LAW OFFICE
